The Healthy Dining Initiative is brought to you by the North Central District Health Department and its partnering food establishments.

This community initiative is designed to promote the availability of healthy and delicious dining out choices for children, families, and adults.

The participating food establishments listed have voluntarily applied to join the program and have committed to offering you a variety of healthy, nutritious food options when dining at their establishments.

Together, we are helping create a healthier place for you to live, work, play, and grow!
