

COVID-19 Guidance for Healthcare Personnel and Residents in Long-Term Care Facilities

Healthcare personnel with COVID-19 may return to work when all three are met:

- 1. At least 7 days have passed since symptoms began if a negative viral test is obtained within 48 hours prior to returning to work, and**
- 2. At least 24 hours have passed since last fever without use of fever-reducing medications, and**
- 3. Symptoms (e.g. cough, shortness of breath) have improved**

Residents of long-term care facilities with COVID-19 can end isolation when all three are met:

- 1. At least 10 days have passed since symptoms began, and**
- 2. At least 24 hours have passed since last fever without the use of fever-reducing medications, and**
- 3. Symptoms (e.g. cough, shortness of breath) have improved**
